NOTICE.

Mr. Dan'l. Smith has been appointed Treasurer of the MOHAVE COUNTY MINER, and will in future collect all bills due, and pay all accounts against the same.

Kingman, Arizona, January 1st, 1892.

LOCAL AND PERSONAL.

Robert Gray was in from Stockton Hill Monday.

Hon. Foster S. Dennis has gone down to the Berkeley mine.

John Kolar has improved his place on Beal street very much.

J. C. Ogden is still running his tunnel on the Olympia mine, Cedar district.

Mrs. Wm. Carleton, who has been very ill the past three weeks, is slowly convalescing.

Dick Hall is in from Providence with a carload of rich ore which he will sell to the sampler.

On the 6th of March the Wallapai Indians will receive their monthly allowance of rations.

A new bath room has been added to the Hubbs House, which is quite a convenience for the guests.

Tom Woods has struck a large body of black sulphure ore in his Hardscrabble mine in Wallapai mountain.

Hartley B. Thompson and G. W. Beecher left to-day in search of fat steers for the next Wallapai Indian feed.

John K. Mackenzie and John Mulligan have gone out to Weaver and Minnesota districts on a visit of inspection.

Messrs. Phillips, Duling and Herndon returned last night from a week's trip to El Dorado Canyon, where they went to look at some mining property.

Joe Morgan is in town from the Rattler mine near Chloride. He will have a couple of carloads of ore from this mine worked at the sampler as soon as it can be brought in.

At the river Mike Scanlan has just built an eighteen-foot water wheel which he will connect with an arastra. He intends to commence working ore from a gold mine in Lost Basin.

Dr. D. S. Livingston, formerly of Kingman, arrived from Prescott Thursday morning in response to telegram to attend Mrs. W. G. Carleton who has been very ill for the past week.

Landlord Sargent is adding farming to his other enterprises. He already has ten acres of Wallapai valley sown to wheat and will have forty acres more as soon as the ground can be plowed.

John Jamison has just returned from an extended trip to Ivanpah and southern Nevada. He found a number of good looking copper prospect on his trip, but as yet has not had his samples tested.

The duck hunting party returned from their trip to the river Saturday night. They brought back considerable game, but we will not risk our reputation on the statement that they were the slayers of the said game.

James Gilligan was over from El Dorado Canyon this week renewing acquaintance with his many old friends in this place. Mr. Gilligan returned to the Canyon Wednesday morning where he will engage in mining.

Tom Burch was in from his Lookout mine, near the old Hibernia, yesterday, after supplies. He has succeeded in opening up a good body of ore, the lowest assay from which runs one hundred ounces silver per ton. The assorted ore runs over 600 ounces.

William Flannigan, Jack Kinney and Frenchy Peters have returned from their prospect trip into the Chinahueve mountains. They succeeded in locating several mountain ranges while on the trip, and are now negotiating a sale with some Chinese capitalists in Kingman.

E. D. Sargent returned Tuesday morning from a business trip to California. The object of his trip was the purchase of the Hubbs House from Mr. Thomas Baker, the former owner. We understand that all arrangements were completed and the new proprietor will shortly make extensive improvements in his already popular hotel.

Mr. and Mrs. Wm. P. Carr came up from the Copper Camp Wednesday morning.

Deputy Sheriff Ewing made a round-up of the vagrants this week and succeeded in bagging six. They have been given twenty-day situations on the street.

A horse race took place at Yuma between two local horses last week, in which several thousand dollars on the result, and now a suit at law has been commenced to recover the money lost.

Col. Bates, of the Arnold mining company, is in town, and will leave as soon as possible for the mines in Cedar Valley. He is accompanied by two of the best mechanics on the coast, R. Dillon, millwright, and J. Griffin, machinist and engineer. These gentlemen will have charge of the erection of the new hoisting plant about to be erected on the mine.

The recent burglary in our town is a reminder that the only way to keep funds safely is to deposit them in bank and make disbursements by check. The Arizona Central Bank of Flagstaff offers exceptional advantages to our citizens and has proven itself worthy of confidence and patronage. It enters the new year with increased facilities for caring for the wants of its patrons.

A Big Strike in Mohave County.

MINERAL PARK, ARIZ., Feb. 22, 1892.

All the big things are not in Colorado; neither are all the novelties in the Okonogon country. The old story that there is "nothing new under the sun" has been exploded in Mohave county. Over in the river range, four miles north of Union Pass, there has just been located by some prospectors from Mineral Park a flat vein of a substance that has all the properties of vulcanized rubber. It is about nine feet in thickness and shows along the range where the bed rock is bare for about two miles in length. It has been long known to the Wallapai Indians who have used it for sandals, although unknown to the whites until last week, when Messrs. Wilkinson, Gerrett and Henkle, all well known prospectors, noticed some mountain sheep jumping from a perpendicular cliff, fifty feet in height and rebounding in the air some ten feet and walking off as if they enjoyed the exercise, and upon investigation the boys found it to be a deposit of elastic gum. Professor Thompson investigated the find and thinks it the overflow of an asphaltum lake upon a substratum of ozokerite, and that it has been blended and sulphurized by volcanic action. Prof. Thompson brought in two chunks that Mr. Tarr placed under a flat car in place of broken springs, and this morning the car returned from Gallup loaded with fifteen tons of coal and the pieces were wearing better than the original springs.

The owners are getting out a couple of hundred pounds of thin sheets for the next issue of the Mohave County MINER, so that hereafter if a person wants a bigger mining story he can pull the paper and stretch the story to suit himself.

The substance is of a beautiful lilac hue, and can be sliced as thin as a political party's fulfillment of its promises on the silver question. When sliced as thin as this it is transparent and has the soft diaphanous appearance of old lace, in fact nearly every lady in Mineral Park is at present wearing a veil made of this wonderful material.

It is useless as a riata. The boys cut out a strip forty feet in length and tied up the burro, and when Mr. Gerritt started to bring in the jack the next morning there was no jack in sight, but noticing that the riata was no larger than a fish line he followed it up and found the jack on a pile of tin cans at the Ark mine. Mr. Henkle, becoming uneasy, went out and carelessly pulled up the picket pin which caught in the leg of his overalls and dragged him as far as the Chloride road where he managed to hail a passing team. He will be all right in a few days. Mr. Wilkinson is still at the mine.

Nothing shows the elastic propensities of this wonderful material better than this incident. The boys hold the property at \$200,000. Mr. Todd, of Mineral Park owns a one-fourth interest, he having grub staked the boys, who made the find. It is the most important discovery made in Arizona for many years. Seattle and Creede papers please copy.

Fred Dawson, who has been prospecting in the Chinahueve mountains, came up Tuesday and is preparing to return to that country to work some of the claims which he has located. He says that the country is a perfect network of ledges, some of which are rich in gold, silver, lead and copper. The claim of Brawn & Co. is looking fine. A shaft is being sunk down as fast as possible and in ore as rich as any found on the surface. This surface ore, it will be remembered, gave an average return of one hundred ounces in gold. The Pittsburg mine now has a shaft about fifty feet in depth and shows up ore that will average \$125 per ton without any assorting whatever.

County Republican Central Committee.

A convention of the Republican party of Arizona will be held at the city of Phenix on Thursday, the 7th day of April 1892, for the purpose of electing two delegates and two alternates to the National Republican Convention to be held at Minneapolis on the 7th day of June 1892.

Mohave county is entitled to six delegates to the Phenix Convention.

The Chairman of the County Republican Central Committee hereby issues a call to the members of the county committee to meet Wednesday evening, March 2nd at 7 o'clock at the rooms of the committee at the courthouse in Kingman to decide on the proper method of selecting said delegates.

WM. G. BLAKELY,

Chairman County Republican Central Committee.

E. J. GODMAN,

Secretary.

SUMMONS.

IN THE DISTRICT COURT OF THE Fourth Judicial District, in and for Mohave County, Arizona Territory.

Thomas Pearce, Samuel L. Chadwick, George Barnett, James Gracey, Peter McLinden and Charles McGrath.

Plaintiffs,

vs.

C. V. Mead, C. W. Chamberlin, Frank Bradley, J. M. Cross, J. M. Manahan and the Elkhart Mining Company.

Defendants.

The Territory of Arizona Sends Greeting to C. V. Mead, C. W. Chamberlin, Frank Bradley, J. M. Cross, J. M. Manahan and the Elkhart Mining Company.

You are hereby summoned and required to appear in a civil action brought against you by the above named plaintiffs in the District Court of the Fourth Judicial District, in and for Mohave County, Territory of Arizona, and answer the complaint filed with this Court at Kingman, in said county (a copy of which complaint accompanies this summons) within ten days, (exclusive of the day of service) after the service upon you of this summons, if served within the county, but if served out of the county and within the District, then within twenty days. In all other cases thirty days.

And you are hereby notified that if you fail to appear and answer the complaint as above required the plaintiffs will take judgment by default against you.

This action is brought to obtain a decree of this court for the foreclosure of a certain lien described in said complaint, and you are hereby notified that if you fail to appear and answer the complaint the plaintiff's will apply to the court for the relief demanded in the said complaint.

Advice to Mothers.

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for children teething to over fifty years with perfect success. It relieves the little sufferer at once, produces natural, quiet sleep by freeing the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste, soothes the child, softens the gums, allays pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle.

Mr. C. W. Reed, proprietor of the Hotel Dellone, Omaha, one of the finest new and modern hotels in the west, says of Chamberlain's Cough Remedy: "We have used it in our family for years with the most satisfactory result, especially for our children, for colds and croup. It can be depended upon; besides it is pleasant to take and seems to be free from chloroform and the oily substances put up into many cough mixtures." 50 cent and \$1 bottles for sale by H. H. Watkins, Druggist.

NOTICE.

KINGMAN, April 1st.
Notice is hereby given that the Night-hawk mine or the owners thereof will not be responsible for any debts contracted by the contractors or lessees thereon.

If you dread that insidious disease Consumption, use it. Ask your Druggist for SHILOH'S CURE, Price 10 cts., 50 cts. and \$1.00. If your Lungs are sore or Back lame, use Shiloh's Porous Plaster. Price 25 cts. For sale by all Druggists and Dealers.

Buckwheat Cakes.

The old way of setting to raise over night by the use of yeast, while the cakes were light yet there was always a well founded suspicion that buckwheat cakes made in that manner were indigestible and unwholesome, because of the chemical action that takes place, so alters the flour from its original character, that the souring or decomposing process continues in the stomach, followed by dyspepsia and kindred troubles.

The new way does away with all fermentation, souring etc., and places upon the table smoking hot buckwheat cakes in 12 minutes or less. Dr. Price's Cream Baking Powder is the element that superseded the old methods. Buckwheat and all griddle cakes made with Dr. Price's Powder are not only exceedingly light and delicious, but can be enjoyed by dyspeptics and invalids with impunity. Dr. Price's Cream is the only baking powder containing the whites of eggs.
